

AQUASmart

100% Waterproof Hybrid Flooring

Now we have AquaSmart, the smart flooring choice that delivers the most recent technological advances in flooring.

What makes it so smart?

AquaSmart flooring is constructed from wood fibres and thermoplastics with an LVT top.

This advanced multi layered manufacturing process makes it a superior 100% waterproof floor with genuine green credentials and none of the issues associated with traditional wood based flooring products.

- The rigid WPC core maximises general stability.
- Particularly improved stability in heat and cool areas
- Resistant to breakdown in water.
- Smart enough to use in residential kitchen, laundry, bedroom, living and dining areas.
- Robust enough for offices, retail, multi-unit and aged care.
- Backed by Lifetime residential and 7 year commercial warranties.
- AquaSmart has a 0.5mm PU wear layer making it highly resilient to surface wear or staining.
- Quick and easy to maintain.
- The durable Vinyl backing layer makes it resistant to chips and dents.
- Simple to install Valinge advanced 2nd generation locking system requires no glueing and minimal subfloor preparation.

FLOORING XTRA
