MADE IN FRANCE

Gerflor[®]

FEATURES AND BENEFITS

Gerflor Texline boasts an enviable list of practical features and benefits. Warm and soft underfoot, quiet and comfortable – even in high rise situations, waterproof both sides and quick and easy to install, Texline is the perfect choice for new homes, townhouses or renovations.

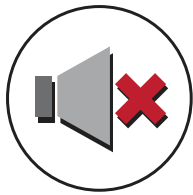

Warm and comfortable

Soft, absorbent backing insulates against cold, bringing year round warmth and comfort to your home.

Save money and time

This flooring can be laid directly, without adhesives, over most existing floors for a fast and cost effective flooring solution. The innovative textile backing absorbs subfloor irregularities making it possible to transform areas covered with old tiles or noisy ceramics.

Acoustic comfort

This flooring effectively reduces noise bringing quiet comfort in your home. Ideal for apartments, flats or corridors and hard and noisy floors.

Waterproof from above and below

The anti-mildew and waterproof membrane prevents the transfer of mould to the surface, ideal for wet areas and damp concrete floors.

Easy to clean

The superior surface treatments create a barrier to prevent dust and dirt from penetrating the surface, allowing for easy maintenance.

Environmentally friendly

The backing is made with more than 90% recycled fibres and the product is 100% recyclable. The VOC rating is even lower than regulations demand ensuring a safe, environmentally friendly solutions for every room in the home.

Tough and durable

This flooring is protected by the latest scuff, scratch and stain resistant surface treatments making it suitable for high traffic areas. Kids and pets are welcome in a Texline home.

PATENTED INNOVATION

Plastic bottles for recycling

20 million bottles used per year*

Conversion to plastic chips

= 600t of oil not consumed

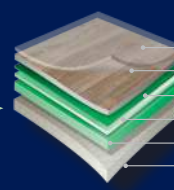

Extrusion to convert chips into fibre

Backing made with more than 90% recycled fibres

Non woven production from recycled fibres

WEAR LAYER PURECLEAN FINISH
PATTERNED FOAM
FIBREGLASS INTERLAYER
ANTI-MILDEW BONDING LAYER
COMPACT BALANCING LAYER
FIBRE BACKING,
OVER 90% RECYCLED FIBRES

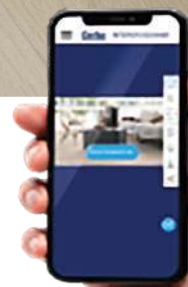

Fibre layer integration on to Gerflor backing

1m² of: Texline = 4 bottles

Gerflor Texline is the ultimate looselay flooring solution. The exclusive textile backing is made from recycled plastic bottles so it is resistant to moisture and ideal for wet areas as well as general use. Texline is quick and easy to install over most existing subfloors with minimal preparation.

TEXLINE

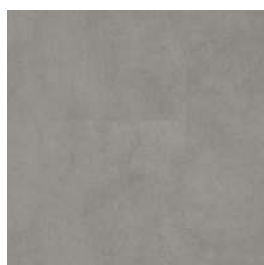

PREMIUM COLLECTION

Make a bold statement or provide a neutral foundation for your décor – the choice is yours when you select your flooring from the Texline Essence collection. Encaustic tile designs inspired by the Victorian era in England, sit alongside layered textured surfaces to offer distinctive contemporary choices. Seven wide plank timber designs and colours combine with two herringbone parquetry looks to add natural beauty to any room in your home. Texline can be loose laid - install it over old ceramic tiles or worn timber to completely transform your décor.

LOFTEX

MODERN ELEGANCE

The Loftex collection punches above its weight in the value for money stakes. Sophisticated timber and tile designs sit on the surface of the 2.5mm thick, hard wearing textile backed range that can be loose laid in an area up to 35 sq metres. Install it over old ceramic tiles or worn timber to completely transform your décor.

PRIMETEX

URBAN COLLECTION

Classic black and white, taupes, natural timbers and even green grass, all form part of the latest Primetex collection – the perfect answers to your quest for a contemporary look or something a little more daring. Choose from tile and plank designs or allow the stunning all over designs to lay the foundations for your inspired décor. Permanent, glued installation is recommended for this range. Note, indoor use only.

INSTALLATION

Texline Essence and Loftex can be loose laid directly over most subfloors, wooden floorboards, ceramic tiles and concrete slabs.

* Provided there is no height variation and irregularities, joins or gaps don't exceed 3mm width and 2mm depth. Best results will be enjoyed using a trained installer and following Gerflor's installation instructions. Texline cannot be installed over carpet.

Primetex range has similar features and benefits but is not recommended for looselay. This product should be permanently glued to satisfy warranty conditions and ensure optimal performance.

MAINTENANCE

- For regular maintenance use a vacuum cleaner, a soft broom or a damp mop.
- To clean use a neutral floor cleaning detergent with water and rinse thoroughly.
- Most stains can be removed using a damp cloth with Eucalyptus oil. Do not use solvents or ammonia based cleaners.
- To keep your floor looking beautiful do not allow waxed or rubber product to have prolonged contact with your floor. Replace wax or rubber castors on the end of furniture legs with plastic or nylon ends or protect the floor with felt pads.
