CARPET COURT

texline nature

Transform your living space with Texline Nature, an innovative flooring solution by Gerflor, designed with a strong emphasis on environmental sustainability. Texline Nature is the first residential sheet vinyl in the market that contains both recycled materials and bio-attributed PVC. This helps to reduce the carbon impact and makes Texline Nature an ideal choice for eco-conscious homeowners. Featuring highly realistic wood and stone designs inspired by biophilia, Texline Nature brings the beauty of nature into your home while protecting the planet.

Forest Birch

Forest Birch is a light wood design with hues of pale tan and soft beige featuring a subtle grain texture. The absence of heavy graining gives a clean and contemporary look that creates a spacious and open layout.

Forest Panga

Forest Panga features warm natural wood tones from light beige to medium brown. The visible wood grain adds depth and character that can easily complement a wide range of interior styles.

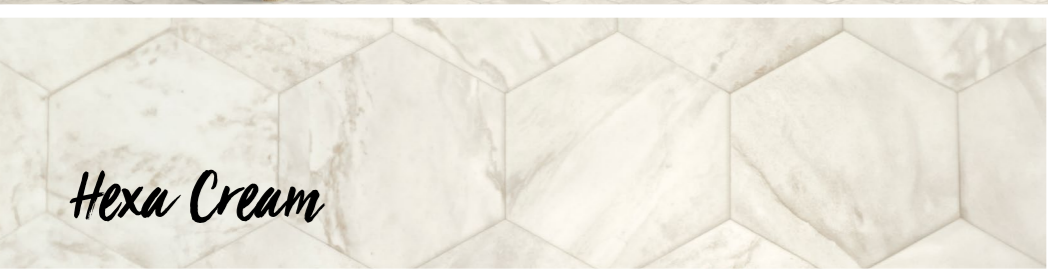

Forest Honey

Forest Honey features planks in varying shades of warm honeyed browns. This creates a rich and inviting space with a touch of rustic charm suitable for both modern and traditional interior styles.

Woodring Clear

Woodring Clear is a light wood with a prominent grain pattern showcasing various shades of beige and tan. The design displays unique natural wood characteristics such as growth rings, contributing to the floor's overall rustic yet refined aesthetic.

Hexa Cream

Hexa Cream has a hexagonal tile pattern consisting of various shades of beige, grey and off-white. This is an elegant versatile design that can complement a wide range of interior styles.

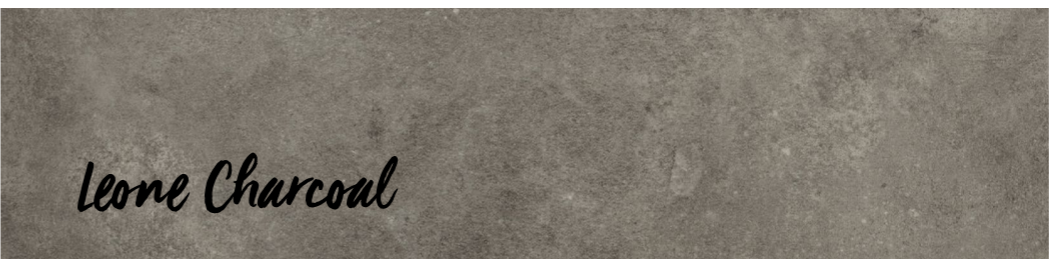

Leone Greystone

Leone Greystone has a monochromatic colour palette in shades of grey. The subtle speckles and marbling effects throughout provide a contemporary sleek and understated look.

Leone Desert

Leone Desert replicates a neutral concrete effect. The light beige to soft grey tones provide an understated yet sophisticated design style.

Leone Charcoal

Leone Charcoal features a blend of dark and light grey tones creating a textured appearance. This type of flooring can be described as having an industrial aesthetic, suitable for spaces aiming for a modern and minimalist vibe.
