Maintenance

To maintain the good looks of your Gerflor flooring with minimal effort follow these guidelines.

Initial maintenance

- Remove loose dirt and debris from the newly installed floor using broom or vacuum. Ensure all adhesive residues are removed with due regard to supplier's recommendations. Do not use high abrasive pads or scourers.
- Wash floor with a damp mop using a neutral pH7 floor cleaning detergent with water. Ensure all detergent residues are rinsed and removed from the floor.

Care and protection

- **Rubber leaves indelible stains on vinyl flooring.**
Avoid placing waxed or rubber products in prolonged contact with your Gerflor floor.
- Replace rubber castors on the end of furniture legs with plastic or nylon ends or protect the floor with felt pads.
- Never use solvent-based wax, seals, polishes or varnish particularly those containing acetone as they can destroy the wear layer and create matte areas.
- The use of weight dispersing aids under heavy furniture is recommended in order to avoid permanent flooring indentation.
- The use of mats in doorways significantly reduces the amount of dirt and grit which could damage the new flooring.

Maintenance

- For everyday maintenance use a soft broom or damp mop.
- To clean your Gerflor flooring use a neutral detergent with water and rinse thoroughly.
- Steam mops may be used. Please follow manufacturer's procedures carefully.

Stains

- Clean up any potential stains immediately; don't let it become a problem.
- Most stains can be removed using a damp cloth and eucalyptus oil.
- Solvents and ammonia based cleaners will damage your floor. Do not use these products.
